

Set up Sortd

iOS 26

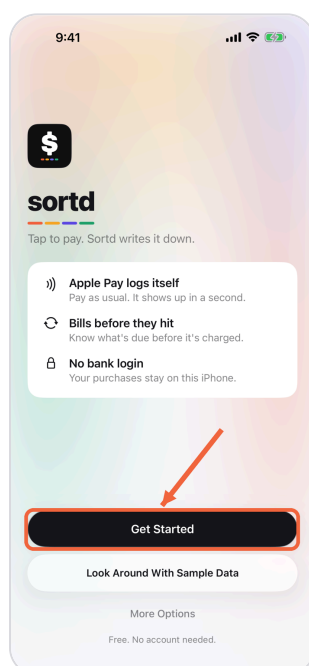

Part 2B

14 steps · about 2 minutes

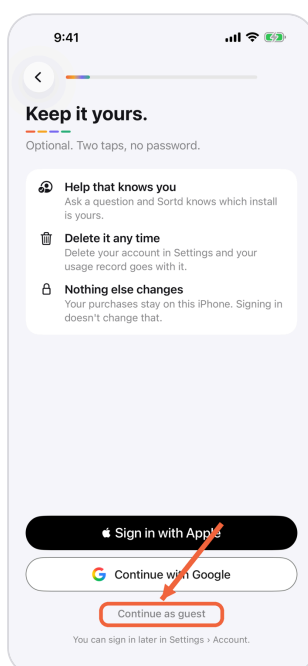

Not sure? Open **Settings** > **General** > **About** and look at **iOS Version**.

Part 1 Get Sortd

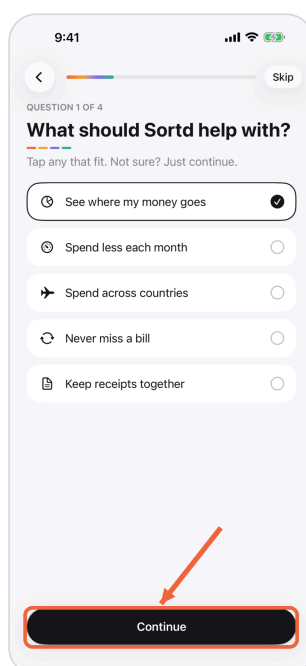

1. On your iPhone, open the **TestFlight** link from your Sortd email.
2. If it asks, install **TestFlight** from the App Store. It's free and made by Apple. Then open the link again.
3. Tap **Accept**, then **Install**. Open **Sortd** and follow its screens:

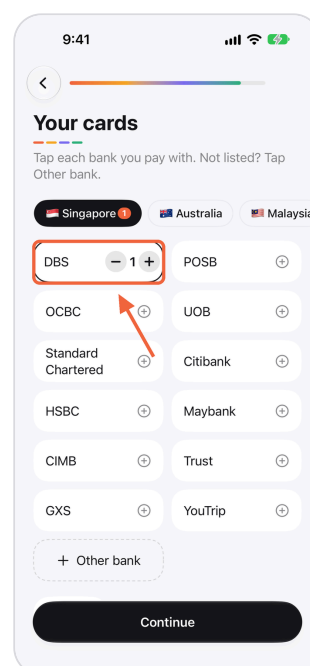

Tap **Get Started**

Sign in, or **Continue as guest**

Answer 4 quick questions

Tap the banks you pay with

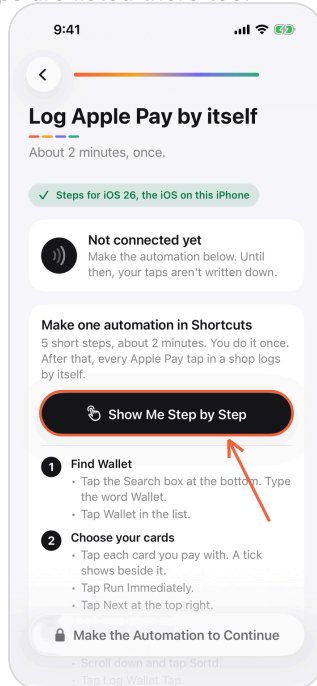

When Sortd shows **Log Apple Pay by itself**, turn to **Part 2B** (iOS 26).

Apple Pay logging on iOS 26

Made a Wallet automation for Sortd before? Delete it first. In Shortcuts, tap **Automation**, swipe left on it and tap **Delete**. Then do these steps. No shortcut to download.

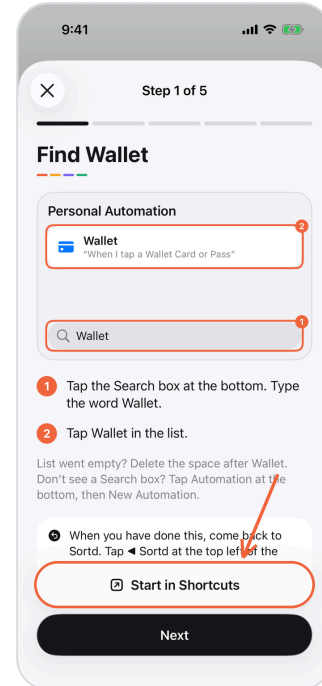

1 Tap Show Me Step by Step

On Sortd's **Log Apple Pay by itself** screen. All 5 steps are listed there too.

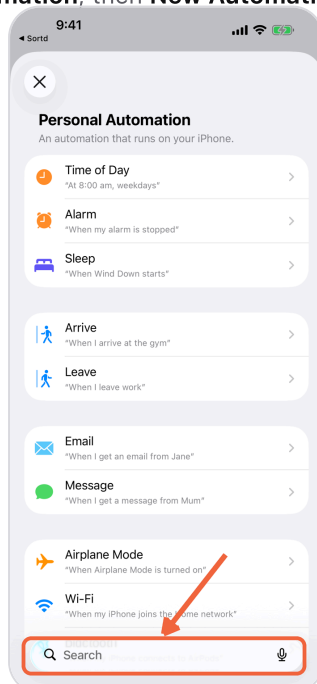

2 Tap Start in Shortcuts

Shortcuts opens on a list.

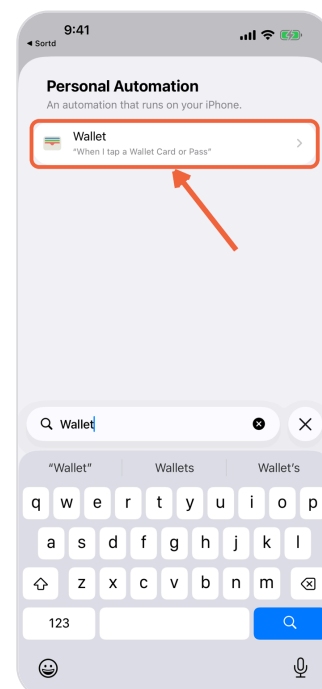

3 Tap Search. Type Wallet.

Search is at the bottom. Not there? Tap **Automation**, then **New Automation**.

4 Tap Wallet

"When I tap a Wallet Card or Pass".

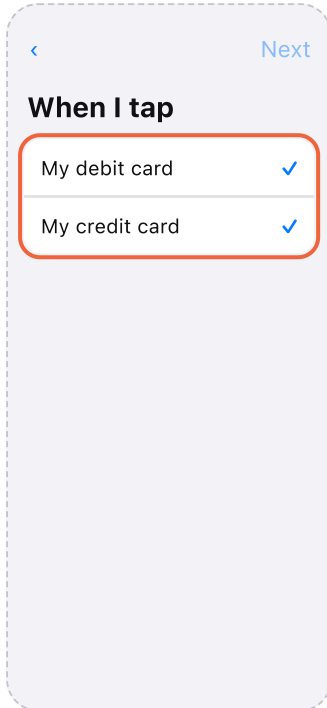

Apple Pay logging on iOS 26

5

Pick your cards

Tap each card you pay with. A tick shows beside it.

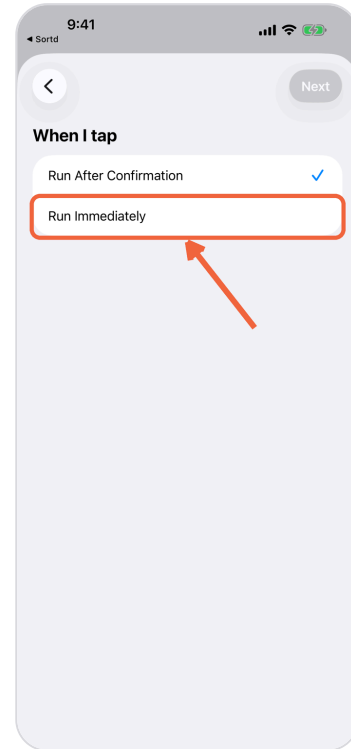

A drawing. Your own cards show here

6

Tap Run Immediately

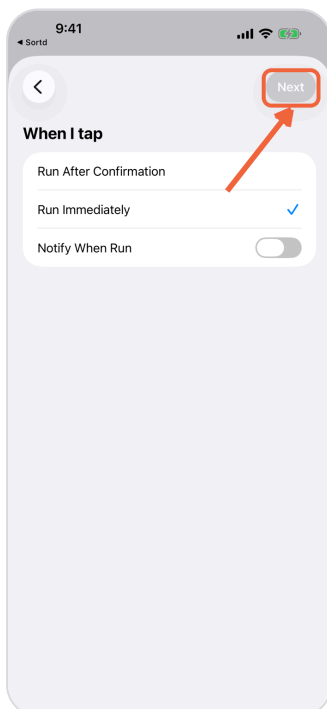

The tick moves to **Run Immediately**.

7

Tap Next

Tap right. Leave **Notify When Run** off.

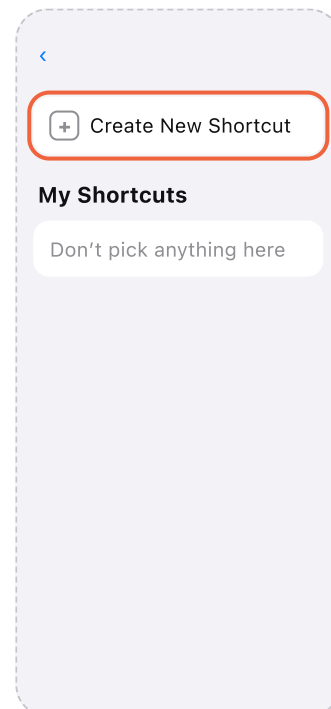

Next turns blue once your cards are picked

8

Tap Create New Shortcut

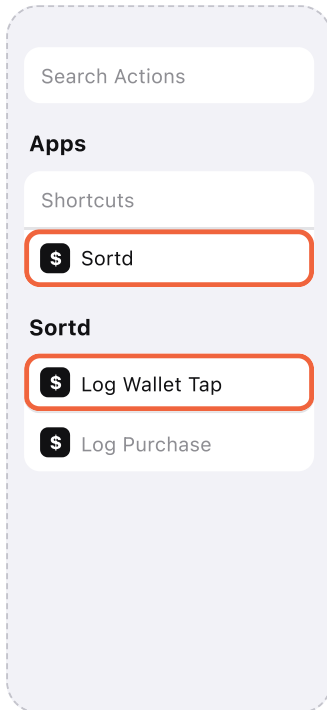

Don't pick a shortcut under **My Shortcuts**.

Apple Pay logging on iOS 26

- 9 Tap Sortd, then Log Wallet Tap**
Scroll down the list of apps to find **Sortd**.

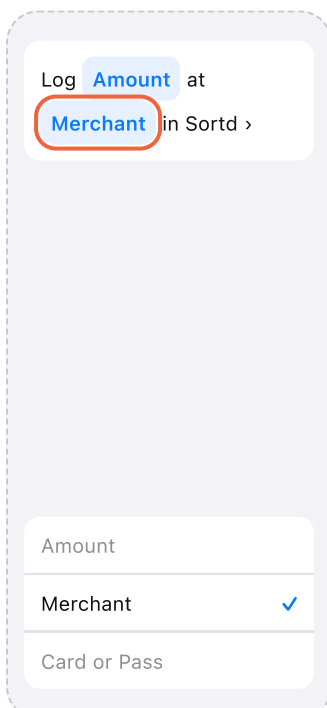

A drawing of this screen

- 10 Fill in Amount**
Tap **Amount**, then **Shortcut Input**. Tap it again and choose **Amount**.

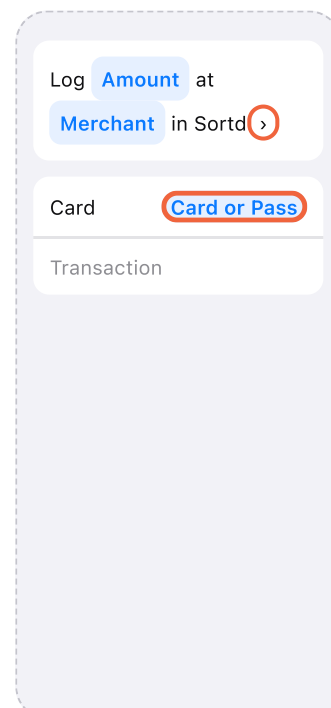

Tap Shortcut Input, then tap it again for this list

- 11 Fill in Shop**
Do the same for **Shop**. Choose **Merchant**.

A drawing of this screen

- 12 Fill in Card**
Tap the blue >, then **Card**. Choose **Shortcut Input**, then **Card or Pass**.

13 Switch off Show When Run

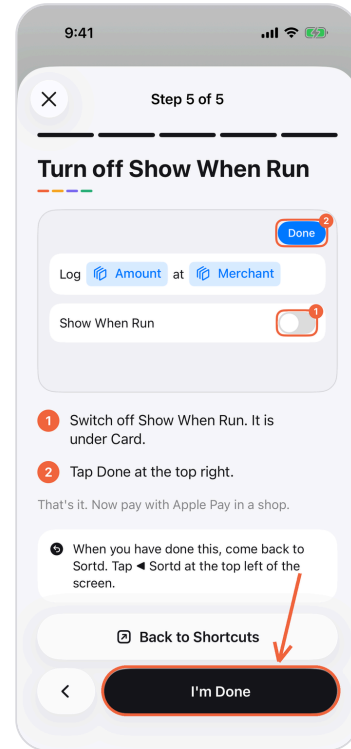

It is under **Card**. Then tap **Done** at the top right.

Show When Run switched off (grey)

14 Back in Sortd, tap I'm Done

Tap ◀ **Sortd** at the top left. Tap **I'm Done**, then **Continue**.

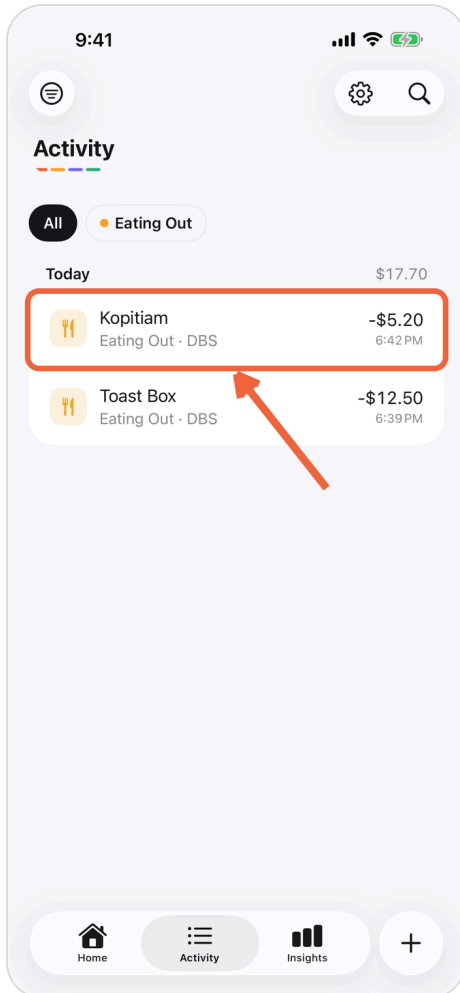

Check it works

Pay with Apple Pay in a shop

Open Sortd and tap **Activity**. The purchase is already there. The ► button in Shortcuts doesn't test this.

Example: S\$5.20 at Kopitiam

Sortd says it worked

⚙️ > **Purchase Sources** > **Apple Pay Logging**
shows **Last tap logged**.

Last tap logged · Today 6:42 PM
\$5.20 at Kopitiam

Good to know

- **Apps and websites:** on iOS 27 these log from Wallet's notification. On iOS 26, add them with + in Sortd.
- **iOS 26, paid and nothing showed up:** open the automation in Shortcuts. Amount, Shop and Card must each say **Shortcut Input**, and **Run Immediately** must be ticked.
- **Cash, or anything missed:** tap + in Sortd.
- **Now and then** Apple's trigger misses a tap, mostly at vending machines, transport gates and parking.
- **Help:** sortd.page/support
